21 NOTICE OF THE REORGANIZED DEBTOR'S FORTY-FIRST OMNIBUS OBJECTION TO
22 CLAIMS

23 RESPONSE DEADLINE Dec 1, 2020
24

25 Hearing date December 15, 2020 10 am pacific Telephonic appearances only
26

27 Original claim form submission Primeclerk A19132673
28

1 OPPOSITION OF DISALLOWED / STATEMENT

2 Creditor name: Marguerite Sawyer

3 Claim/Scheduled to be disallowed and expunged 59635

4 Debtor: Pacific Gas and Electric Company

5 Date filed/scheduled 10/16/2019

6 General unsecured \$22,000.00

7 Total Amount \$22,000.00

8 Basis for objection: Damage not caused by PG and E

9 I, creditor, Marguerite Sawyer, own a duplex rental at 912 5th Street in Orland,
10 California 95973. In December 2017 it was damaged due to a PG and E pole fire. PG
11 and E paid and agreed portion to my insurance for damages. The problem I am
12 submitting for happened as of December 2018 when the rebuild was almost
13 complete just waiting for meter placement. It wasn't until this point in the
14 construction that the builder, Josh Bailey of Allstar Buidling Services was notified by
15 Ann Husted of P G and E that there was a much more serious problem then just
16 bringing out new meters. This caused a 10 month delay to get these units rented.
17 Current rent is 1,050 for Unit A and 1,175.00 for Unit B. Because of the Camp Fire
18 units were renting immediately but because of this and other P G and E lack of
19 communication the completion of the project was so delayed that I am looking to
20 recover lost rents for 10 months at a total of \$22,000.00

21 There is a string of emails here to show starting June, 2018 Josh Bailey AllStar
22 Building Services was beginning the process of re-hooking up power and gas to the
23 property at 912 5th Street, Orland, CA 95973 PG and E application number
24 115007795. Josh was given Amy Husted as contact for this project. Panels going in
25 August 2018 per July 30, 2018 email from Josh to Amy Husted. September 19, 2018
26 email from Amy Husted out of office after no response. December 7, 2018. A reply
27 was sent by Amy Husted that work was on hold due to Camp Fire email December
28 10, 2018. At this point Amy notes that the gas wasn't just turned off but that the gas
line was cut off from the main service line and that an entirely new line would need
to be paid for. Another email inquiry sent to Amy Husted January 14, 2019, Amy
responded apologizing for delays (at this point 4 months of delays/lack of response

1 or action by PG and E. January 23, 2019 No action per email from Josh Bailey to Amy
2 Husted. Another four months went by before May when Todd Cash was put at the
3 help of the PG and E problem to replace this line at 912 5th Street Orland, CA. The
4 line which PG and E cut off at the main due to a fire caused by P G and E pole in
5 December of 2017. After Todd Cash of P G and E took over we were given a bill to
6 pay the monies were submitted immediately this was May 2019. There is an email
7 from Josh Allstar Building to me stating that there was an environmental hiccup of
8 some sort June 2019. Then nothing from PG and E except to state there was a
9 coordinator needed to bore under the concrete etc from Todd email dated June 10,
10 2019 with a minimum time-frame of 3 weeks before the work can be done. The
11 work was completed in August at which time the rest of the waiting projects could
12 be completed. At this point the delays were about 12 months in total. I am
13 requesting 10 months of missed rent from January 2019 when the project should
14 have completed instead at that point we found out there had been a much bigger
15 problem not previously identified by P G and E, through October, 2019 when I was
16 able to advertise and rent the units.

17 I declare this statement
18 to be true under penalty
19 of perjury.

Bcc: margiesawyer10 <margiesawyer10@gmail.com>

Am I to submit this directly to Bankruptcy court? If I am can you please provide the address, fax, or email to send this to? Please let me know how to proceed?

For your reference here is addendum to my claim A19113273 with some more detail and supporting documents:

My name is Marguerite Sawyer (aka Margie Sawyer), I own a duplex at 912 th Street in Orland California.

On October 11th, 2017 my Father, Guido A. Baroni passed and a duplex property located at 912 5th Street in Orland, CA was left to me in the trust set up by my Mother and Father. Prior to the property transferring into my name a PG and E pole caught the duplex on fire on December 16, 2017. This was established and PG and E did pay some damages to my insurance company for their fault. See the original claim letter from the insurance under my Father's name attached.

The rebuild neared completion December 7th, 2018 and by errors and incorrect information provided by agents of PG and E there was found after much delay that the gas line had been condemned. PG and E took some months before finally replacing the gas line and installing the required two new meters. When this was finally done a change was made by the City of Orland and some more work was needed to final since the project was delayed by 10 months due to P G and E. The project was signed off by the City of Orland on October 7, 2019 and is ready to rent. I am in process of renting it now.

Margie,

Thank you for contacting Prime Clerk. Prime Clerk is the court appointed claims and noticing agent in the chapter 11 cases commenced by PG&E and its primary operating subsidiary (collectively, the "Debtors"). As such, we are not permitted to provide legal or financial advice.

If the date of the incident or loss occurred before the January 29, 2019 petition date, you must submit a claim in these Bankruptcy proceedings in order to retain your right to recovery. Information and instructions regarding filing a claim are available here: <https://restructuring.primeclerk.com/pge/EPOC-Index>.

Additional information regarding these proceedings is available here: <https://restructuring.primeclerk.com/pge/Home-Index>.

PLEASE NOTE: The deadline to file claims other than 503(b)(9) claims, including General Claims, Fire Claims, Wildfire Subrogation Claims, Customer Claims, and Governmental Unit Claims, is October 21, 2019 at 5pm (Prevailing Pacific Time). All claims must have been received by Prime Clerk PRIOR to this deadline in order to be considered timely filed. Prime Clerk will process proofs of claim received after the deadline; however, the Debtors may object to such claims on the grounds of lateness, among other reasons.

PLEASE NOTE: The deadline for filing 503(b)(9) claims expired on April 22, 2019. Any such claim must have been received by this deadline to be considered filed in a timely filed. Prime Clerk will continue to process claims received after the deadline; however, any such claim may be objected to by the Debtors on the grounds of lateness, among other reasons.

PLEASE NOTE: We are not authorized to accept claims by email or fax, and any documents or information provided via either of these methods will not constitute a claim in these cases.

Please let us know if we can be of further assistance.

Regards,

PG&E Online Claim Form Submission Confirmation-A19132673

1 message

pg&eclaims@pge.com <pg&eclaims@pge.com>
To: marglesawyer10@gmail.com

Wed, Sep 18, 2019 at 3:48 PM

Dear Margle Sawyer,

Thank you for submitting your claim online. This communication serves to acknowledge receipt of your claim. Please print this page for your records.

Your Claim Number is **A19132673**

On January 29, 2019, (the "Filing Date") PG&E filed for Chapter 11 in the U.S. Bankruptcy Court for the Northern District of California.

Under Bankruptcy Court rules, claims related to matters occurring prior to the Filing Date are required to be addressed as a part of the Company's Chapter 11 case. As a result, if your claim is related to matters occurring prior to the Filing Date, you will need to refile your claim directly with the Bankruptcy Court.

Information and documents related to the Company's Chapter 11 cases, including information regarding how to file a claim, will be available on a website administered by our claims agent, at <https://restructuring.primeclerk.com/pge>. In addition, you can call the Restructuring Hotline at 844-339-4217 (for calls originating outside of the U.S. please dial +1 929-333-8977) or you can send an email to pgeinfo@primeclerk.com.

Please note that based on information currently available, it is anticipated that any claims submitted for incidents occurring on or after January 29, 2019, will be handled via the standard PG&E claims process.

If you have not provided supporting documents OR have additional documents to submit (e.g., Receipt, or Estimates for items claimed) please submit through one of the following:

1. **E-Mail to:** <mailto:claimsdocs@pge.com?subject=A19132673>
2. **Fax to:** (925) 459-7326 with a copy of this confirmation page
3. **Or US Mail to:**

Pacific Gas and Electric Company
PG&E Law – Online Claims
1850 Gateway Blvd. 3rd Floor
Concord, CA 94520

Please include your Claim Number with all correspondence.

It is Pacific Gas and Electric Company's policy to promptly and fairly respond to customers' claims.

If you have questions or concerns regarding your claim please call our claims helpline at (415) 973-4548.

Thank you for your courtesy and cooperation in this matter.

Sincerely,

PG&E Claims Department

Dear Josh Bailey,

At Pacific Gas and Electric Company (PG&E), we are committed not only to delivering safe and reliable energy, but also to helping you achieve your project goals. We have noticed your project has become inactive and we understand that your project needs may have changed.

What to expect

If you would like to continue making progress with your project, please contact me at your earliest convenience. Unless we hear from you, your application will be cancelled **30 days** from the date of this letter.

Certain projects require advanced charges, such as a deposit for the engineering cost known as an Engineering Advance. If you have paid an Engineering Advance or other advanced charges, and your costs do not exceed that amount, you will be refunded the difference.

I can be reached via email or at **530-894-4713** during normal business hours. We remain committed to helping you achieve your project goals and look forward to hearing from you.

Sincerely,

Bradley Featherston

Luz, I am having a heck of a time getting PG&E to get the gas meters set. I was working on this before the Paradise fire, but our contact went cold after the fire. I was able to reach a manager yesterday who seemed to have motivated our contact to get going again. Apparently the gas service was capped out in the street at the time of the fire. Now they are trying to decide who's responsibility it is to bring the gas back to the house.

We are all anxious to get this job closed out. Will update you as soon as I hear something.

Hi Josh,

I do apologize for any delays I was out of the office half the day on Thursday and did not return until today. I have reached out to my supervisor to get an answer if you the customer was responsible for the cost to bring the gas service back to the property or if it is the cost of PG&E. I understand from the picture it looks like there is possible gas at this location however as stated in the below email the gas service was cut off at the main during the fire. There is no gas on the property at this time. My question to you is if the cost is on the customer to bring the gas service back to the property is this something you would like to move forward with? If so I will continue and get this engineered ASAP so I can get the contracts out to you and get a crew to replace the gas service at this location.

Thanks

Subject: RE: App # 115007795 gas hookup

Good Morning Josh,

Yes that is what it looked like when I came out as well, however after doing some research on this to see why this was cut off like this I have come to find out that the gas crew at the time of the fire actually cut off the gas service at the main. They did not remove the riser and just cut it off and left it there. There is no gas service coming to the property. The crews placed a marker ball at the location of the cut off at the main. PG&E needs to come back out and replace the service. Per the GSR it looking like the cost is on OGE, but I am still getting clarification on that since my ADE has been out of the office. With that being said I have been pushing this to get into estimating but with the Camp Fire everything has been put on hold, but I will be working with my estimator this morning to see if we can get this completed for you ASAP and get this service reinstalled.

Thanks

Hi Amy,

I have sent a few texts, but I am wanting to follow up on the gas service at 912 5th St in Orland. App # 115007795. We are ready for some service over there, can you update me on the timeline?

I am sure it is quite a roller coaster on your end, I appreciate your looking into this.

Thanks much,

Josh Bailey

Hi Josh,

I do apologize for any delays I was out of the office half the day on Thursday and did not return until today. I have reached out to my supervisor to get an answer if you the customer was responsible for the cost to bring the gas service back to the property or if it is the cost of PG&E. I understand from the picture it looks like there is possible gas at this location however as stated in the below email the gas service was cut off at the main during the fire. There is no gas on the property at this time. My question to you is if the cost is on the customer to bring the gas service back to the property is this something you would like to move forward with? If so I will continue and get this engineered ASAP so I can get the contracts out to you and get a crew to replace the gas service at this location.

Thanks

Good Morning Josh,

Yes that is what it looked like when I came out as well, however after doing some research on this to see why this was cut off like this I have come to find out that the gas crew at the time of the fire actually cut off the gas service at the main. They did not remove the riser and just cut it off and left it there. There is no gas service coming to the property. The crews placed a marker ball at the location of the cut off at the main. PG&E needs to come back out and replace the service. Per the GSR it looking like the cost is on OGE, but I am still getting clarification on that since my ADE has been out of the office. With that being said I have been pushing this to get into estimating but with the Camp Fire everything has been put on hold, but I will be working with my estimator this morning to see if we can get this completed for you ASAP and get this service reinstalled.

Thanks

Hi Todd, in emailing Amy, Natalie responded and mentioned you were the new contact on this project. Amy and I had discussed that PG&E would do the trench and the backfill + concrete work. I don't see reference to this on the contract. Can you please clarify the PG&E scope of work? Can you tell me if there are any costs or items outside of the contract that the owner will be responsible for to finish this project?

Thanks much,

Josh Bailey

Hi Amy,

Thank you for this. In looking at the contract, I am a little unclear. Is this a "turn key" project. Will there be any owner responsibility costs or tasks in addition to PG&E's work? PG&E is doing the trench & concrete patch back correct?

Please let me know.

Thanks, Josh

Hi Josh,

I have attached the contract above. You can print it out, sign and submit with monies to the address at the bottom left corner of the first page.

PG&E CFM.PPC Department

PO BOX 997340

Sacramento, Can 95899

You should be able to sign and make the payment online from the customer portal, I am not sure what the issue is with the portal at this time. So instead of delaying this project jut go ahead and print it form here.

Thanks

Josh,

I looked in the notes in SAP on your job and it says Natalie emailed you a copy of your contract because you elected to have your contract mailed to you.

Once we get the signed contract back we can schedule your job for construction.

Thank you

Hi Josh,

In regards to your email below PG&E is trenching and backfilling. They will saw cut the concrete for the walk way where the new service is being installed. PG&E will then put in a tag to have the sawcut re-cemented for you. It will not happen that same day will but we will be taking care of that for you as well. Hope this helps. If you have any other questions I am more than happy to help answer them for you since I have been working on this project with you for quite some time.

Natalie, Now Todd is out of the office. We are desperate for an update.

Do you have any info on this?

Thanks,

Josh

Hey Larry,

Josh Bailey is calling checking on this job, it shows an outstanding Enviro Serv dependency in process.

Do you know what the holdup is here?

Thanks, Todd Cash

Hi Larry, any update on this? We are really hopeful for an update. This project was an insurance claim & the insurance company is only able to pay on this claim for another couple of weeks. If there are any delays or additional costs, it is imperative that we know asap.

Thanks much,

Can you ask Luz to reply and confirmed she received the information about the money sent into PG and E?

thank you Josh

Luz has an adjustment check ready to send you. I think it is about \$16,400 & includes the PG&E stuff. She wants it to be the final check, so I have not pushed her to send it because we are still a bit unsettled with the city of orland. They required an energy test on the HVAC system (which is complete) and I want to make sure they don't need anything else from us. I was hoping to hear from the city this week, but its gonna be next week at this point. Luz will add the cost of the test in & anything else needed from the city before she sends the \$\$.

Margie, looks like they got past the environmental hiccup & sounds like we are waiting for construction date.

Josh

Josh,

The permits are complete now, I left a message for our Gas Const Coordinator to please get this job on the schedule.

Thanks, Todd

Hi Todd, customer is concerned the cost and time frame might be changing? Amy & I had discussed that the contract amount would be for turn key service & no other costs are anticipated on this line set & meters.

Any thoughts on this & any update on the schedule?

Thanks,

Josh

Josh,

The gas coordinator just came by and said he is going to have to bore underneath all the concrete, this takes 3 weeks to coordinate with all other utilities in the area.

He is aware of the urgency on this job.

Thank you

Todd Cash

Tue, Jun 25, 2019 at 2:29 PM

Josh,

As far as I know I don't think there are any additional costs. I heard they will be doing this soon. There was a 3 week minimum notice timeframe we had to give other utilities

Incidental to this project before we can bore the service in.

Thanks, Todd
